**PETITION TO REVIVE Under 37 CFR §1.137(b)**

Mail Stop Petition  
Honorable Commissioner for Patents  
P.O. Box 1450  
Alexandria, VA 22313-1450

Dear Sir/Madam:

This is a petition to revive unintentionally abandoned application under 37 CFR §1.137(b). This petition is accompanied by an Exhibit A containing the Request for Continued Examination under 37 CFR §1.114 and the amendment and response in reply to the outstanding final rejection dated October 21, 2002 and to the advisory action dated April 15, 2003, which were filed together with all required fees on April 22, 2003. A petition fee in the amount of \$1,300.00 is also enclosed as required under 37 CFR §1.17(m).

Applicant respectfully submits that the entire delay in filing the required reply enclosed herewith from the due date for the reply until the filing of this petition was unintentional. Indeed, along with the notice of abandonment mailed on May 6, 2003, the Examiner has stated that “although Applicant had filed the After Final response in a timely manner, this response did not get forwarded to the Examiner until 04-03-03.” The Examiner has further stated that the Examiner “informed Applicant that although the Office failed to forward the timely filed amendment to the examiner sooner, the application is abandoned since the period for replying had expired.” Please see Exhibit B containing the notice of abandonment and the Examiner’s comments on page 3 of the Examiner interview summary on form PTO-413.

To be sure, Applicant’s undersigned attorney did not receive the advisory action until April 22, 2003, which was a day after the reply period had expired. On the same day (i.e. on April 22, 2003), Applicant’s undersigned attorney filed an RCE application and an amendment and response responsive to the final rejection dated October 21, 2002, along with all required fees (which were paid by credit card with form PTO-2038). Please see Exhibit A showing all papers filed with the RCE application (a copy of the credit card payment form PTO-2038 which was also filed is not included in Exhibit A).

Since the required RCE and amendment and response fees have already been paid with the filing of April 22, 2003, Applicant has included herewith only a credit card payment of \$1,300.00 to cover the present petition to revive. However, the Commissioner is hereby authorized to charge payment of any additional fees associated

with reviving the present application and/or associated with this communication, or credit any overpayment to our Deposit Account No. 50-0731.

Applicant respectfully requests an early grant of this petition to revive and the entering of the enclosed amendment and response to the final office action in the above-referenced application.

Respectfully Submitted,

## Summary of Record of Interview Requirements

### Manual of Patent Examining Procedure (MPEP), Section 713.04, Substance of Interview Must be Made of Record

A complete written statement as to the substance of any face-to-face, video conference, or telephone interview with regard to an application must be made of record in the application whether or not an agreement with the examiner was reached at the interview.

### Title 37 Code of Federal Regulations (CFR) § 1.133 Interviews

#### Paragraph (b)

In every instance where reconsideration is requested in view of an interview with an examiner, a complete written statement of the reasons presented at the interview as warranting favorable action must be filed by the applicant. An interview does not remove the necessity for reply to Office action as specified in §§ 1.111, 1.135. (35 U.S.C. 132)

#### 37 CFR §1.2 Business to be transacted in writing.

All business with the Patent or Trademark Office should be transacted in writing. The personal attendance of applicants or their attorneys or agents at the Patent and Trademark Office is unnecessary. The action of the Patent and Trademark Office will be based exclusively on the written record in the Office. No attention will be paid to any alleged oral promise, stipulation, or understanding in relation to which there is disagreement or doubt.

The action of the Patent and Trademark Office cannot be based exclusively on the written record in the Office if that record is itself incomplete through the failure to record the substance of interviews.

It is the responsibility of the applicant or the attorney or agent to make the substance of an interview of record in the application file, unless the examiner indicates he or she will do so. It is the examiner's responsibility to see that such a record is made and to correct material inaccuracies which bear directly on the question of patentability.

Examiners must complete an Interview Summary Form for each interview held where a matter of substance has been discussed during the interview by checking the appropriate boxes and filling in the blanks. Discussions regarding only procedural matters, directed solely to restriction requirements for which interview recordation is otherwise provided for in Section 812.01 of the Manual of Patent Examining Procedure, or pointing out typographical errors or unreadable script in Office actions or the like, are excluded from the interview recordation procedures below. Where the substance of an interview is completely recorded in an Examiners Amendment, no separate Interview Summary Record is required.

The Interview Summary Form shall be given an appropriate Paper No., placed in the right hand portion of the file, and listed on the "Contents" section of the file wrapper. In a personal interview, a duplicate of the Form is given to the applicant (or attorney or agent) at the conclusion of the interview. In the case of a telephone or video-conference interview, the copy is mailed to the applicant's correspondence address either with or prior to the next official communication. If additional correspondence from the examiner is not likely before an allowance or if other circumstances dictate, the Form should be mailed promptly after the interview rather than with the next official communication.

The Form provides for recordation of the following information:

- Application Number (Series Code and Serial Number)
- Name of applicant
- Name of examiner
- Date of interview
- Type of interview (telephonic, video-conference, or personal)
- Name of participant(s) (applicant, attorney or agent, examiner, other PTO personnel, etc.)
- An indication whether or not an exhibit was shown or a demonstration conducted
- An identification of the specific prior art discussed
- An indication whether an agreement was reached and if so, a description of the general nature of the agreement (may be by attachment of a copy of amendments or claims agreed as being allowable). Note: Agreement as to allowability is tentative and does not restrict further action by the examiner to the contrary.
- The signature of the examiner who conducted the interview (if Form is not an attachment to a signed Office action)

It is desirable that the examiner orally remind the applicant of his or her obligation to record the substance of the interview of each case. It should be noted, however, that the Interview Summary Form will not normally be considered a complete and proper recordation of the interview unless it includes, or is supplemented by the applicant or the examiner to include, all of the applicable items required below concerning the substance of the interview.

A complete and proper recordation of the substance of any interview should include at least the following applicable items:

- 1) A brief description of the nature of any exhibit shown or any demonstration conducted,
- 2) an identification of the claims discussed,
- 3) an identification of the specific prior art discussed,
- 4) an identification of the principal proposed amendments of a substantive nature discussed, unless these are already described on the Interview Summary Form completed by the Examiner,
- 5) a brief identification of the general thrust of the principal arguments presented to the examiner,  
(The identification of arguments need not be lengthy or elaborate. A verbatim or highly detailed description of the arguments is not required. The identification of the arguments is sufficient if the general nature or thrust of the principal arguments made to the examiner can be understood in the context of the application file. Of course, the applicant may desire to emphasize and fully describe those arguments which he or she feels were or might be persuasive to the examiner.)
- 6) a general indication of any other pertinent matters discussed, and
- 7) if appropriate, the general results or outcome of the interview unless already described in the Interview Summary Form completed by the examiner.

Examiners are expected to carefully review the applicant's record of the substance of an interview. If the record is not complete and accurate, the examiner will give the applicant an extendable one month time period to correct the record.

### Examiner to Check for Accuracy

If the claims are allowable for other reasons of record, the examiner should send a letter setting forth the examiner's version of the statement attributed to him or her. If the record is complete and accurate, the examiner should place the indication, "Interview Record OK" on the paper recording the substance of the interview along with the date and the examiner's initials.

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: During a telephone conversation with Mr. Farjami, examiner Cruz explained to Mr. Farjami that although Applicant had filed the After Final response in a timely manner, this response did not get forwarded to the examiner until 04-03-03. The Attorney informed examiner Cruz that the mailing of the Advisory Action on 04-15-03, due to the above, did not give the Applicant time to respond to the Advisory before the period for reply expired. Examiner Cruz informed Applicant that although the Office failed to forward the timely filed amendment to the examiner sooner, the application is abandoned since the period for replying had expired. .
